SUMMARY

Computer Engineering student and Full-Stack Developer with hands-on experience in Java, React, Node.js, and AI-powered web applications. Delivered freelance web solutions and built scalable products including an intelligent agriculture assistant and AI-enabled e-commerce platform. Active Innovation Lead at CESA and regular participant in hackathons, demonstrating strong problem-solving and teamwork skills. Seeking an entry-level Full-Stack or Backend Developer role.

EXPERIENCE

Innovation Lead — CESA (Computer Engineering Students Association, Pune) Oct 2025 – Present
- Led innovation-driven technical initiatives and student activities
- Coordinated team members for successful event planning and execution
- Reviewed and supervised project work to ensure quality delivery
- Promoted collaborative project development and technical learning

Java Intern — TalentBattle Jul 2025 – Aug 2025
- Completed structured training in Core Java and Object-Oriented Programming
- Built Java mini-projects to strengthen backend and logical skills
- Applied OOP concepts including inheritance, polymorphism, and encapsulation
- Improved debugging and problem-solving through hands-on coding

Freelance Web Developer 2024 – Present
- Designed and developed responsive websites for small business clients
- Converted client requirements into optimized, mobile-friendly solutions
- Provided basic digital marketing support to improve online presence
